

## Quick Play

Get in to teams, the more players the better.

The first team rolls the dice and whichever colour it lands on is the colour question card they must answer.

Your questions will be asked by the team to your left.

Each question card consists of 4 questions, one from the 80's,90's,00's & 10's.

The team that rolled the dice must choose which decade they wish to answer a question from.

If they answer correctly, they move forward one space. If the answer is incorrect the next team gets the chance to steal the question and if answered correctly move forward one space.

If no one gets the answer right, the next team rolls the dice and game play continues as above

The winning team is the first to reach the finishing square.

So enough of the instructions put your knowledge to the test and show your opponents just how much you remember on the trip "Back Down Memory Lane
